

NBYC Finton Cup and Season Results for Applebee and Sutton Series

Finton Cup

What a great race! It was probably the best conditions for all boats with WNW winds at 8-10 kts of the season. The start was a bit easier than Tuesday's Race as we actually had two starting buoys on the line. It was a good start with Paradox taking the early lead followed closely by Pegasus, KristinB, Qi Mover, Grin, Dawn Treader, and Legato. Most boats went wing and wing with the slightly shifting winds from the west. Paradox rounded the #2 Bell Buoy first with KristinB and Pegasus right on her tail. The beam/broad reach to Gull Island was quick with no change in the order of the leaders. The beat to the finish was the equalizer as Paradox shot out fast and Pegasus over took KristinB. The rest of the fleet were not far behind. Shifting winds made it difficult to stay hard on and the distance between Paradox and Pegasus grew. Paradox was first over the line for her 7th line honors in 10 races while Pegasus and KristinB followed her in. The corrected finish times is why I said it was probably the best conditions for all the boats. The time difference between the first 4 boats was 52 seconds! 1 second separated Pegasus from Paradox to win the 2020 Finton Cup, KristinB was 46 seconds behind 2nd place Paradox. Another truly great race for the Finton Cup

Applebee Series Season Results (after 1 mandatory race throw out)

First Place Pegasus with 29 Points
Second Place KristinB with 21 Points
Third Place Paradox with 20 Points

Line Honors: Paradox with 6
